

AI Career Roadmap

Personalized 6-Month Strategy • Behavioral Analytics Track

STUDENT → BEHAVIORAL ANALYTICS

Generated using Chain-of-Thought Reasoning

CURRENT POSITION

- Status: Student
- Skills: Data Analysis, Statistics/Math
- Skills: Design, Marketing/Research
- Strength: Critical Thinking
- Gap: No domain specialisation yet

TARGET GOAL

- Role: Behavioral Analytics Specialist
- Timeline: 6 Months
- Sub-goals: UX Research + Product Analytics
- Deliverable: Portfolio + Internship/Role
- Salary Range: █4–8 LPA (entry level)

SKILL GAP ANALYSIS

SKILL AREA	YOU HAVE	YOU NEED	PRIORITY
Python / SQL	—	Intermediate	█ HIGH
Statistics	✓ Strong	Bayesian Methods	▣ MED
Behavioral Frameworks	Partial	JTBD, COM-B, BJ	█ HIGH
Data Visualization	Design sense	Tableau / Python	▣ MED

RECOMMENDED LEARNING PLAN

M1–M2

Python (pandas, seaborn), SQL basics

M1–M2

Behavioral science: BJ Fogg, COM-B model

M2–M3

Statistics: A/B testing, regression

M3–M4

Tools: Mixpanel, Amplitude, Tableau

M4–M5

UX Research methods + survey design

M5–M6

Capstone project + portfolio build

SUGGESTED PROJECTS

P1

Habit-loop audit of a consumer app

P2

A/B test analysis on public dataset

P3

Churn prediction + behaviour segments

P4

Nudge design case study (Dark Patterns)

P5

Dashboard: user funnel + drop-off analysis

NETWORKING STRATEGY

- LinkedIn: Post weekly behavioural insight
- Follow: BJ Fogg, Nir Eyal, Dan Ariely
- Join: UX Research & Analytics communities
- Attend: Product & Growth meetups (Delhi)
- Cold DM: 2 BA professionals / week
- Contribute: Kaggle + Behavioural Econ forums

MONTHLY MILESTONES

Month 1

Python basics + 1 behavioural framework

Month 2

SQL + first mini-project live on GitHub

Month 3

A/B test project + Tableau dashboard

Month 4

Mixpanel/Amplitude cert + 2 case studies

Month 5

Portfolio site launched + 50 connections

Month 6

Internship application / freelance role

- 1

Install Python + Jupyter Notebook
- 2

Enroll: 'Python for Data Analysis' by Wes McKinney (Coursera)
- 3

Read: 'Hooked' by Nir Eyal (behavioural framework)
- 4

Set up GitHub profile + LinkedIn banner
- 5

Join 2 Behavioural Analytics communities on LinkedIn/Discord
