Professional: Written & Verbal Communication • Critical Thinking • Empathy • Ethics & Confidentiality • Teamwork & Collaboration • Organization & Time Management • Problem Solving

Technical: Generative AI Tools (Claude AI, ChatGPT) • Prompt Engineering • Git & GitHub • AI-Assisted Content Creation • Project Documentation

EXPERIENCE

Independent Content Creator — Psychology & Mental Health Awareness

Self-Initiated | Ongoing

- Develop psychoeducation content that simplifies psychological concepts and human-behavior research for general audiences, supporting mental health awareness initiatives.
- Conduct topic research and literature reviews to ensure content accuracy and ethical responsibility.
- Independently manage the full content workflow — research, writing, editing, and publishing — demonstrating strong organizational and time-management abilities.

PROJECTS

AI Learning Portfolio

Ongoing

- Completing a structured 60-Day AI Learning Challenge with daily applied exercises in prompt engineering and workflow optimization.
- Document every project publicly via GitHub and LinkedIn, building consistent record-keeping and reporting discipline.
